TAKING PLAY SERIOUSLY

We take play seriously

THE STUDIO

With The Studio you can access to a set of field tested and proven games and build your own with your creative team. Every new challenge is a great opportunity: we're up for it. We combine the best technology from augmented reality to geolocation to build the best games - ever.

SaaS for Gamification & Customer Engagement

The Studio is a SaaS digital platform, for building customisable games, for promotions and campaigns that are published and measured online and in real time. We have all the game components for everyone: every target, campaign or type of business. Our team of gamers are up for the challenge to help you build the answer to your challenges.

Overlay

Connect real world images with overlaid digital content like video, audio, 3D, interactive banners and buttons. Add a layer of digital information to almost anything.

Snap

Hide unlimited private video messages into an image with a key code. Create all kind of greeting cards for gifts

Scratch

Our scratch and win game that uses Augmented Reality, instantaneous and addictive! One of the top hit games for customer engagement

Master Quiz

A Battery of Augmented Reality quizzes for competing and learning for anyone up to a challenge.

Avatar

A 3D pet growing game for families with kids using Augmented Reality. Do you remember Tamagotchi (c) ?

Escape room

In-app Augmented Reality Challenges, Riddles, Puzzles and clues to escape from dangerous situations. Fun for all using scalable mobile technology

Geo Hunt

Feel like a hunter? Stand and walk around you to find geo located rewards on a map, viewable through our Augmented Reality Camera. Walk and Hunt prizes and if you are lucky - rewards!

Clue Seeker

A custom app game with geolocated checkpoints for treasure hunts. Your customers can play games around your store and feel who you are as a brand like never before.

These Games needs to be published in collaboration with emotions team
